

Errata
Numerical Methods for Physics
Python Edition

Updated May 14, 2019

This errata lists corrections and clarifications for the first printing of the Python edition. Some items are corrected in subsequent printings.

Corrections

Top of page 3: First element in the assignment statement for **E** should be 1. instead of 0.

Bottom of page 3: For the matrix **G** in equation (1.2) replace 4 with 10 and replace -3 with -9

Top of page 4: For the matrix **J** in equation (1.3) replace 27 with 729

Clarifications
